

DISASTER ASSISTANCE

Hermit's Peak/Calf Canyon Wildfire Restoration Guide

A variety of restoration practices may be needed to restore the natural resources and return the land to its pre-disaster use.

The table below summarizes the restoration practices that may be needed and indicates which program(s) may provide assistance.

Eligibility for practices on this list compensable through the claims office and FSA will be based on the damaged caused by the fire and may include more practices than listed to recover from the damages. This is not an exhaustive list of available restoration activities. To view a full list, visit farmers.gov/hermits-peak.

Tree and Grass Reestablishment  Emergency Watershed <i>*These practices may be applicable if there is a threat to life and property as defined by EWP.</i>	Conservation Cover			
	Critical Area Planting			
	Conservation Cover			
	Cover Crop			
	Windbreak/Shelterbreak Establishment and Renovation			
	Riparian Herbaceous Cover			
	Riparian Forest Buffer			
	Pasture and Hay Planting			
	Tree/Shrub Establishment			
	Forest Stand Improvement			
Erosion Control  Emergency Watershed <i>*These practices may be applicable if there is a threat to life and property as defined by EWP.</i>	Dam, Diversion			
	Sediment Basin			
	Waste Treatment Lagoon			
	Diversion			
	Lined Waterway or Outlet			
	Stormwater Runoff Control			
	Streambank and Shoreline Protection			
	Channel Bed Stabilization			
	Structure for Water Control			
	Underground Outlet
